Unit 4, Monkton House, Highbridge, Somerset, TA9 4QY

## Cabinet Outlines

The most common cabinet is 500mm x 500mm. Sink cabinets, drawers, nurses' modules and cupboards are all commonly this size.

The worktops are commonly 600mm deep: 500mm deep cabinet and 100mm service void at the rear.

Cabinets can be any size but 350mm deep (front to back) is about the minimum for a usable cabinet.

Check manufacturers details for the spaces required for delivery units / carts or give us a call.
